

## **SCICU Legislative Strategic Plan – 2018**

The primary objective of the South Carolina Independent Colleges and Universities Legislative Strategic Plan is to establish an agenda and course of action for a program of education and advocacy on matters of critical importance to the independent institutions of higher learning in South Carolina before the Governor’s Office, General Assembly, and state agencies.

Relevant state matters under review include: 1) general and special appropriations for student grants and scholarships, 2) legislation related to higher education, postsecondary students, and non-profit organizations, and 3) education-related public policy issues before state agencies and commissions.

Within the context of this strategic plan, SCICU staff will monitor, advocate, and report on higher education issues at the federal level. SCICU will work closely with the legislative staff at the National Association of Independent Colleges and Universities (NAICU) and the South Carolina Congressional delegation on funding and policy matters that affect independent higher education.

The Public Policy Committee and the SCICU Board of Trustees will be kept informed of all relevant budget and legislative issues through the Advocacy Section of the SCICU website ([www.scicu.org/advocacy](http://www.scicu.org/advocacy)), newsletters, special e-mail alerts, and regular meetings. In the event of an issue requiring immediate action, the Public Policy Committee Chair and the SCICU President will work with the full committee, an ad hoc committee, the SCICU Executive Committee, or individual board members and college and university presidents, as appropriate, to coordinate the resources of the independent college community to address the particular issue.

### **Legislative Priorities**

#### **1. South Carolina Higher Education Tuition Grants Program**

Support the FY 2018-2019 budget request of the South Carolina Higher Education Tuition Grants Commission for an additional \$2.13 million for grants. If funded at the new level, the maximum student award will increase from \$3,200 to \$3,350. The average grant for FY 2016-17 was \$2,850.

## 2. Merit-based Scholarships

Advocate for full funding of Palmetto Fellows, LIFE, HOPE, and Lottery Tuition Assistance scholarships to all eligible students to include both lottery and general fund appropriations. This includes an increase of more than 8,000 scholarships valued at additional \$20.4 million because the second year phase-in of the change in the high school Uniform Grading Scale from a 7-point scale to a 10- point scale.

## 3. Need-based Scholarships

Support the budget request of the Commission on Higher Education for an increase of \$1 million in state general funds for need-based grants.

Note: The Tuition Grants Commission receives approximately 16.5% of the need-based appropriation to CHE to be used for tuition grants. The 16.5% relates to the proportion of students attending independent colleges and universities compared to the number of students attending public higher education institutions. The Tuition Grants Commission would receive an additional \$165,000 if CHE is successful in its request.

## 4. PASCAL (Partnership Among South Carolina Academic Libraries)

Support CHE's budget request for \$1.5 million in recurring funds for PASCAL. PASCAL was funded at the \$2.0 million level prior to the FY 2008-2009 recession. Since that time, PASCAL has received inconsistent funding from the state education lottery. If new state revenues are not sufficient to restore core funding to PASCAL, advocate funding \$1.5 million as a first priority in excess unclaimed lottery prize funds or similar line item.

Note: PASCAL is a partnership among public and private higher education academic libraries that promotes and enables all the partners to exchange resources through a central electronic card catalogue and delivery system. PASCAL also operates a purchasing consortium that negotiates reduced costs for subscriptions to electronic journals and publications. SCICU members benefit from the expanded resources and cost efficiencies of PASCAL, elements essential for maintaining accreditation.

## 5. Work for passage of specific bills that would benefit SC independent colleges, i.e. H360/S351- Tax Credits for Preceptors, H3142-Contracting with Municipalities for Police Services. Protect the interests of independent colleges by opposing bills that would be harmful.

## 6. Federal Higher Education Issues

Support the agenda of the National Association of Independent Colleges Universities in the broad areas of student aid funding, regulations, and higher education policy with a particular emphasis on the reauthorization of the Higher Education Act.
